## CONSTRUCTION NOTIFICATION

### GLENBROOK/RUGBY AVENUES INTERSECTION IMPROVEMENT

**T**his newsletter is to inform you of the upcoming construction proposed for the intersection of Glenbrook/Rugby Avenues.

The Department of Public Works and Transportation (DPWT) received a request from the public to improve bicycle access and safety at the subject intersection citing the exiting skew limited visibility.

In January 2006, the Montgomery County Council directed DPWT to modify the existing intersection to address the public's concerns. Accordingly, the illustration below shows the proposed improvements that will increase the sight distances at the intersection between cyclists/pedestrians and motorists.

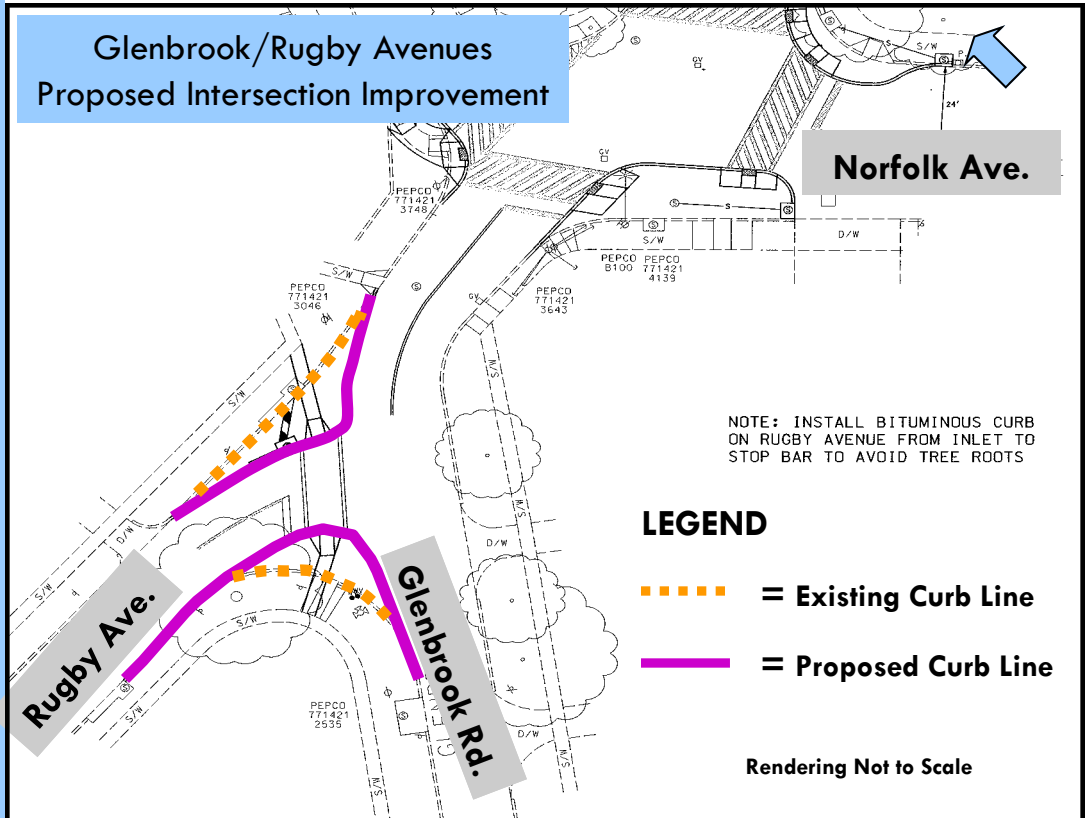

## CONSTRUCTION

Construction is scheduled to begin August 2006, weather permitting and will immediately follow completion of the on-going bump-out construction along Norfolk Avenue between Rugby Avenue and Woodmont Avenue.

Construction will occur Monday through Friday between the hours of 7:00 AM and 5:00 PM. Throughout the construction process, a full-time County inspector will be present on the job site will oversee the construction progress and will be available to answer questions that you may have about the project.

Driveways/sidewalks will remain accessible at all times during construction.
